

## How to Pick Up Stitches on a Vertical Row

Locate the vertical row of stitches where you will pick up stitches. Count to stitch number identified from the corner indicated along the I-cord bind off and counting vertically down the number of required stitches. In the example shown, we counted to the 2<sup>nd</sup> stitch from the corner and then counted to 4<sup>th</sup> stitch down. Insert the needle in to the stitch.

Wrap the yarn around the tip of the needle and pull up a loop.

## How to Pick Up Stitches on a Vertical Row

Continue in the same manner, following the vertical line of stitches down until you have picked up the required number of stitches.

Once you have the required number of stitches picked up down the vertical row, turn your work and continue per instructions.
